

AURORACIRCUITS
North American Technology Solutions Provider for Printed Circuits

Certifications

Aurora Circuits is a unicorn in the world of US-based PCB manufacturers. You simply won't find our combination of skillset, experience, and equipment anywhere else. For example, we're especially proud of our work with heavy copper, laser dielectric removal, carbon thick film, and type dimensional tolerances. All the boards we manufacture – single-sided, double-sided and multilayer – are guaranteed for solderability. Whether you have a design, need a design or require PCB reverse-engineering, our outstanding engineering team is ready to bring your circuit board story to life.

Beyond our promise for genuine 100% USA manufactured products, we promise our customers that we consistently go above and beyond to ensure quality.

Our policy is to provide quality products and services that continually meet our customer's expectations. In our ongoing effort to provide this we want our customers to know we are;

- ITAR Registered
- ISO 9100 Certified
- IPC Member since 1957
- 100% Made in the USA
- AS9100 Certified

About Aurora Circuits

Over 70 years' experience in Printed Circuit Fabrication providing Advanced Thermal Management and Interconnect Technology Solutions for Printed Circuit Designs and Specialty Products.

As one of the trailblazers and longest established, domestic manufacturers in the printed circuit board industry, (formerly known as Kalmus & Associates), Aurora Circuits is known as an industry leader in innovation, customer service and engineering. Let us partner with you to maximize profitability and production sustainability.
